METODOLOGÍAS DOCENTES	
Indique brevemente las metodologías utilizadas	
Classes will include work on research skills and reflection on research-oriented questions and methodologies, through the reading, comparison, contrast, and analysis of the theoretical material assigned. Strong emphasis will be put on the practice of critical reading, the understanding of theoretical concepts, and the practical analysis of authentic discourse.	
EVALUACIÓN	
Indique brevemente el sistema de evaluación	
<p>Evaluación:</p> <p><u>Part 1</u> Students will be asked to write short compare and contrast essays on the assigned readings which will be submitted to <i>Stodium</i> before the class sessions. These short papers, together with class practical work, will be the basis for assessment.</p> <p><u>Part 2</u> Students will develop and present short papers; these sessions will be followed by a general discussion of the points tackled and the methodology used. They will have to do a final research based on the theoretical concepts studied in the class sessions.</p>
