

EVALUATION CRITERIA 2018-19

(SUBJECT) AIRCRAFT GENERAL KNOWLEDGE V	
(INSTRUCTOR) Douglas McConnell	
CREDITS	3
NUMBER OF CLASSES	30 (28 theory and 2 allotted for Progress Test 6, 1 st Sitting and Review)
NUMBER OF PROGRESS TESTS	1
FINAL EXAM	NO
EVALUATION CRITERIA: Each of the three marks will correspond to the indicated percentages of the final mark.	
Progress Test	80%
ASSIGNMENTS	10%
ACTIVE PARTICIPATION IN CLASS	10%
Obligatory Text Manual: Oxford CAE: Aircraft General Knowledge	
<p>Additional information: After approximately 28 classes we will complete Progress Test 6 over the material covered. Once the ponderations for the three areas of evaluation have been combined, following the criteria in the “Guia Docente de Adventia: Grado Universitario”, Edition July 2018, the Final Mark will be determined.</p> <p>Additional Considerations: The mark for active participation in class will be given based upon student involvement in discussion, student attentiveness, and a positive attitude toward learning the material.</p> <p>The mark for additional work will be given based upon student performance in completing the following criteria: Choose one of the chapters covered during the course and in three or four type written pages (Arial 11, single spaced) describe the chosen subject. Technical accuracy is very important; use your own words, if the work is just cut and paste it won't reflect your level of learning, which is the ultimate goal of this project. Images may be very helpful in the presentation but shouldn't compile a major part of the paper. Accurate sources other than the AGK book may be used as references and don't forget to put your name and Student Number on the report. The completeness, accuracy and personal involvement in the development of your report will be evaluated to determine the mark received. The work must be submitted in hard copy (no e-mail), on or before the date of the Progress Test for the Course.</p>
